SIGNIFICANT ACCOUNTING POLICIES:

1. Basis of preparation of financial statements

The accompanying financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention, on the basis of a going concern basis, while revenue, expenses, assets and Liabilities accounted/recognized on accrual basis. GAAP comprises mandatory accounting standards issued by the Institute of Chartered Accountants of India (ICAI), the provisions of the Companies Act, 2013. Accounting policies are consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

Management evaluates all recently issued or revised accounting standards on an ongoing basis. The financial statements are prepared under the historical cost convention. Recognition of income and expenses, accrual basis of accounting is followed.

2. Use of Estimates

The preparation of financial statements in conformity with GAAP requires Management to make estimates and assumptions that effect the reported balances of assets and liabilities and disclosures relating to contingent assets and liabilities as at the date of the financial statements and reported amounts of income and expenses during the period. Examples of such estimates include provisions for doubtful debts, future obligations under retirement benefit plans, income taxes, post-sales customer support and the useful lives of fixed assets and intangible assets.

Management periodically assessed using external and internal sources whether there is an indication that an asset may be impaired. Contingencies are recorded when it is probable that a liability will be incurred, and the amount can be reasonably estimated. Actual results could differ from those estimates.

3. Revenue Recognition

Revenue from IT services are recognized as services are performed when arrangements are on a time and material basis. Revenue from fixed-price contracts is recognized in accordance with the "Percentage of Completion" method.

4. Expenditure

Expenses are accounted on accrual basis and provisions are made for all known losses and Liabilities.

5. Fixed Assets, intangible assets

Fixed Assets are stated at cost, less accumulated depreciation. All direct costs are capitalized until fixed assets are ready for use including taxes, duties, freight and other incidental expenses relating to acquisition and installation. Intangible assets are recorded at the consideration paid for acquisition.

6. Depreciation and amortization

Depreciation on fixed assets is applied on straight-line method, pro-rata for the period of usage, in accordance with the rates prescribed under schedule II of the Companies Act, 2013.

7. Income tax

Income taxes are computed using the tax effect accounting method, in accordance with the Accounting Standard (AS 22) "Accounting for Taxes on Income" which includes current taxes and deferred taxes. Deferred income taxes reflect the impact if current year timing differences between taxable income and accounting income for the year and the relevant of timing difference of earlier years. Deferred tax asset and liabilities are measured at the tax rates that are expected to apply to the period when the asset / liability is realized, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred Tax assets are recognized and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.
